

Our most versatile Gearless Folder -
The Bunch 515 Series "Combo" Folder
is designed for a narrow stream or
up to 10" wide web

Featuring: Electronic Registration

BUNCH 515 Series "Combo" Folder

- This unit electronically registers the fold mechanism to the cross perforation, eliminating the need for change gears. An optical sensor registers to a que mark or label gap.
- The unit can fold a narrow stream in its "Ticket folder" mechanism (Minimum 2" to Max 5" wide stream) or it can fold a standard web from 3 ½" wide to 10" wide in its Spiral Fold Mechanism (590 style).
- The unit can fold 1/8th", 1/6th", 32DP and metric sizes, inline or offline. The need for pin tractor holes is eliminated
- Speeds up to 500 feet (130meters +) per minute may be achieved.
- Off-line or in-line operation

BUNCH 515 Series “Combo” Folder

FEATURING:

Electronic Registration

Advantages:

- Eliminates change gears
- Eliminates the need for a running adjustment
- Eliminates the need for sprocket or line holes when folding off-line
- One folder can fold narrow or wider width products
- The most versatile label/ticket folder available
