

Model 629 Unwind

Product Description/ Functionality:

The economical BESTE 629 Unwind feeds 50" diameter rolls of paper with Web Widths up to 22" to continuous forms printers, inserters, and other types of pack fed devices.

Product Advantages:

- Economical Design increases output and reduces operator interventions.
- Hydraulic Roll Lift included in the design of the unwind.
- Wide range of paper weights accepted.
- Programmable control speeds within ranges up to 500 feet per minute.
- Optional Mobility package includes Wheels, Quick Disconnect Power Cord.
- Direct Interface Capability to printers.
- Standard, self-powered loop control feeds paper at just the right speed for the host equipment.
- Optional Interlock Identifier System for quick error recognition.
- Optional Independent Drive allows this unwind to feed downstream loop controlled devices such as sheeters, perfers, label applicators, imprinters, folders, or other offline devices.

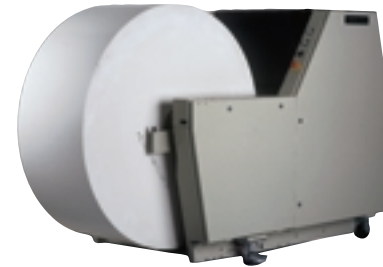

Product Specification:

<u>Dimensions</u>	<u>Weight</u>	<u>Electrical</u>
Height 53"	950 lbs.	208/220/230 VAC
Length 70"*		Single Phase
Width 48"		

*Length loaded with a 50" dia. roll = 91"

* Air source required.

**Rugged, Durable, and Dependable
Built for Speed**

Options:

- Type 1 Interface for Major Printer Vendors
- Air Shaft for 70mm, 5", 6" Kit (for included 3" air shaft)
- Interlock Identifier System
- External Driven Roller for the Laser Printer
- Driven Roller, Independent Drive, and Speed Control
(Allows unwind to feed a loop-controlled downstream unit such as a sheeter, perfor, label applicator, imprinter, folder, or other offline device. Not required for most printers or inserters.)

- Roll Dolly
- Mobility Package
