

The Industry's Most Economical Folder

Model 128 Mod E Folder

Product Advantages:

- Fanfolds perforated output from Laser Printer or other devices
- Utilizes patented Bunch fanfold technology.
- Internal Loop Control to minimize floor space requirements.
- Web widths to 20" wide.
- Smallest folder footprint in the industry.
- Type One Interface for most major printer vendors available.
- Short delivery table with attachment hardware for Rol-A-Way Descending Stacker (included) or Bunch Rollaway Forms Cart (available at an added cost).
- Jam detection.
- Optional Interlock Identifier System for quick error recognition.
- Significantly increases throughput over your printer's stacker module.
- Speeds to match most continuous pack printers.
