

Model 512 Surface Driven Unwind

Product Description/ Functionality:

The **BESTE Laser Unwind** feeds 50" diameter rolls of paper with web widths to 18" to the continuous form printers. Unique "Pack Feeder Option" allows easy conversion to spliced, interfaced pack feeding unit.

Product Advantages:

- Increases output and reduces operator interventions
- Semi-Automatic roll loading
- Wide range of paper weights
- Easily converts to a Pack Feed Device for shorter runs.
Reduces operator bending and lifting to load stacks.
- Multiple Belt drive system reduces down-time
- Splice detection
- Adjustable end-of-roll sensor
- Mounted on wheels for mobility between printers
- Direct interface capability

"Pack Feeder Option" shown.

Product Specification:

<u>Dimensions</u>	<u>Weight</u>	<u>Electrical</u>
Height 50"	950 lbs.	208/220/230 VAC
Length 73.5"	(Loaded)	Single Phase

**Rugged, Durable, and Dependable
Built for Speed**

Question: WHY IS THE BESTE UNWIND BEST?

Answer: IT'S CONVERTIBLE TO A PACK FEEDER.

In the past, you had to make a decision about whether you wanted to buy a roll unwind device or a pack feed device to feed your printers.

If you had extremely long jobs you probably chose a roll unwind. If you had medium size jobs, you probably chose a pack feeder. Once you made a choice, you discovered you could really use both types of feeders.

With the "Pack Feeder Option" available on all BESTE Bunch Roll Unwinds, you can easily feed 3 spliced stacks of paper into your printer automatically. As those stacks are used, more stacks can be easily added for virtually uninterrupted stacked throughput.

Then, when you have a longer job, you can easily remove the "Pack Feeder Option" and run jumbo rolls of paper for virtually uninterrupted roll throughput.

Splice from roll to pack and go, or

Splice from pack to roll and go.

Since the pack feeder option is waist high, your operators spend significantly less time bending and lifting packs of forms.

A BESTE Unwind with "Pack Feeder Option" features one of the smallest unwind footprints available and is still competitively priced. (In fact, our Unwind with pack feeder option costs less than many of our competitors' unwind only units.)
