

The First Major Innovation in Fold Technology in Fifteen Years. Renders all existing folders obsolete by comparison.

Pinless/Gearless Folder

Product Advantages:

- May be used with pinfed or pinless papers.
- “Gearless” design eliminates “fold” gears.
- Electronic changeover to different form lengths.
- Patented, easy changeover for different form widths.
- No tools required for paper changes.
- Internal Loop Control to minimize floor space requirements.
- C.S.A. Listed, Manufactured in the U.S.A.
- Folds any size perforated form between 7" and 14".
- Folds sizes down to 5" or up to 17" with optional kit.
- Jam Detection, Interlock Identifier System for quick error recognition.
- Wheel Mounted.
- Choice of High Capacity Long Delivery table or Short Delivery table with attachment hardware for Roll-A-Way Descending Stacker or Bunch Roll-A-Way Forms Cart System.
- Speeds to 400 FPM – Faster than any digital laser or LED printer.
- Type 1 Interface for most major printer vendors available.
